Dear Jay,

I trust you will find a logical development in my activities from my attempts to connect LIVE-AID concerts to our work /you met me on the 11 th of July last year, remember?/. I what I propose now, related to symbolic act of disarmament. Carol Rosin recently addressed a Space Command people with my rather futurist proposal. So Idea came to my mind: why do not we shoot a round table discussion of such a project during your congress? I am ready to do my best and help from this side on any level, a docu-drama film based on a fact of real dismantling deserve attention of futurists. If you think it is possible - fire a telex to me via Joel Schats in SAN FRANCISCO and we shoot it .

Hope to hear from you asap.

Sincerely,

Joseph Goldin
